-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims contain instances of vague and indefinite language, such as "designed as a complement," "almost semi-cylindrical," and "is aided by." The structure claimed is also unclear in some cases, such as how the casing and the baffle are related, the form and connection of the hinge, and the structure of the collection tank with its multiple compartments. The claims should be rewritten to clarify the structure claimed. While the use of figure reference numbers in claims is permissible, the claims should be clear on their own and not require referring to the drawings.

2. Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The recitation of an oil spill cleanup device comprising a pair of arms having a casing of cylindrical configuration with an open top and a baffle at the front, for containing a screw and being connected to a collection tank on the ship patentably distinguishes over the prior art of record. Oil spill cleanup screw conveyors, as exemplified by Brown, Virtanen, and the French and Canadian patents do not show such a configuration for the screw casing.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other references disclosing features of interest include Terokomos, Tuttle, in't Veld, van Waveren, Carro, and Blomberg.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Upton whose telephone number is 571-272-1169. The examiner can normally be reached on 7:30-5:00, off every other Monday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
